

## Dealing & Shuffling the Cards at home

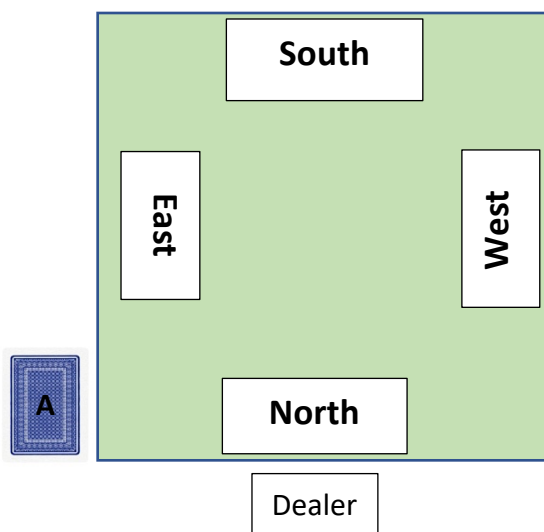

The dealing and shuffling of cards prior to starting any game is designed so that three people have a hand in preparing the cards:

- One person shuffles
- One person cuts
- One person deals

No one can say the deck was stacked! No one can claim they were poorly prepared. Three different people have touched the cards before you play them.

Before you start the session:

1. Assuming the first Dealer will be North
2. Dealer's Left-Hand-Opponent **shuffles** pack A

---

For each game:

1. Dealer takes prepared pack from Left-Hand-Opponent
2. Dealer offers cards to Right-Hand-Opponent to **cut**
3. Dealer's partner shuffles second pack, and places deck on their right
4. Dealer **deals**
